

1313 Global Average Annual Fuel Efficiency

Description

States representing 85 percent of international activity are taking actions to contribute to ICAO's 2 percent global annual fuel efficiency improvement goal by 2018. FY13 Target: States representing 50 percent of international activity

Commentary (03/2013)

This measure is on track. API and AEE demonstrated progress towards this metric by continuing to review environmental action plans submitted to the International Civil Aviation Organization (ICAO) and are monitoring the next group of states likely to submit plans that will account for the final 20% of the FY-2013 target.
